

Care instructions Festtracht women

Dear Trachten-kameraden,

Thank you for buying your Festtracht from us.

To enjoy them for a long time, please follow these instructions:

Skirts:

Please do **not** wash your skirt in the machine or even in the dryer.

Please bring them to the dry-cleaning company.

If there is a little spot, you can of course gently brush them with a damp (not wet) cloth.

If you need to iron the skirt, please do that also gently.

Iron it on the wrong side to prevent shine.

Or just hang it next to the shower. The steam will iron it for you!

White Blouse, Tights, Bloomers, Underskirt, Vorstecker, cotton cloth:

You can wash it in the machine with 60° C (140 F).

Do **not** put it in the dryer! Wash only together with white clothes.

If you need to iron it, please do it when it is still a bit wet.

Apron (Polyester / Cotton):

You can wash them in the machine gently with 30° C (86 F), best in a bag.

Do **not** put it in the dryer.

Spencer/Sleeves/Janker:

You can gently wash them or bring them to the dry-cleaning company.

Hard Mieder:

You can **not** wash or dry clean the hard mieder.

So to keep it nice very long, please wear a long blouse to keep sweat away.

After wearing it, leave it open for a while (preferably overnight) before rolling tight.

(Look at "How to care Mieder")

Soft Mieder:

You should not wash the soft mieder.

Please bring it to the dry-cleaning company.

Shoes

Please only use a black shoe polish (not a neutral shoe polish) and polish them with old silk tights or with a soft brush.

Hat

If your hat got wet, just let it air dry. Do **not** put it on the heater.

Then brush the hat with a soft clothes brush in the direction of the hairs (If necessary, brush off the hat over steam to get the hair back up).

I wish you many nice events with your Tracht!
